4. MARKET CLUB

<http://club.ino.com/discover/>

If there's one club service traders must enlist themselves into, it's Market Club. It's an exclusive service run by INO.com that equip traders with high-tech tools and distinctive methodology apart from the rest.

Adam Hewison, owner of INO.com and founder of Market Club, created this service in order to share his secrets of "Giant Footprints", a tool which diagnose market movements, to traders of all generation with hope that they too can have a renewed discovery and passion for earning profits.

This guy believes that money can be made mostly off the trading floor. His discovery of "Giant footsteps" in Geneva, Switzerland has changed his life tremendously and so his vision is to share them with others.

With buckets of time and sweat poured in, as well as loads of foresights, this is what Market Club is in a gist:

- It's an exclusive members-only service packed with first-class tools and technology for analyzing market trends
- It's the only trading service today that uses the "Giant Footprints" technology. It's a mathematical formula that lets you walk through market movements with no hassles and more results.
- "Giant Footprints" is no contest for all types of traders and investors.
- Their state-of-the art technology allows you access from anywhere you may be. With just a computer and an internet connection, you can access your account in an instant.
- They have a Smart Scan technology, which is an online technology that gives you a general picture of the trends in the market. The instant technical analysis is so brilliant it can perform types of scans based from your own personal data.
- They have a feature called Chart Portfolio which lets you design and personalize your own chart. Here, 100,000 symbols can be chart analyzed and thirteen studies can be applied.

- They have a Data Central where you can download 100,000 symbols for your own satisfaction

And to top all that off, additional benefits are in store for you like:

- Access to workshops by eminent speakers that talk about stocks, futures, options, forex, indices, money management and so much more. With this alone, the investment is already worth it.
- A daily end-of-the-day email for complete analysis of your entire portfolio

If that isn't enough to get tongues wagging, then check these bonus videos out:

For all these, the risk is undeniably less. The club membership and other service are nothing short of impressive. This is the one that you need to get if you want a sensible package for yourself.

5. STOCK PICKER RT

<http://www.stock-picker-rt.com/>

Stock Picker RT is the easiest and fastest developed breakthrough technology for picking winning stocks every trading day. Its advantage among other programs is that it can easily determine which stocks must be picked at any given day for possible rewards.

For such a new generation of software for finding stocks and understanding it, Stock Picker RT is already making waves in the market especially to those who are into short-term trade.

This software is a “must-have” for those who want to know:

- How to start in on trading
- How much to invest
- When to sell
- How to get familiarize with the market
- How to avoid losing

This brand new software also has an easy-to-use program that will help you consistently compound your portfolio value.

Heavily packed with features such as specific screening criteria that will guide you choose potential winners, it will do the work for you by just simply marking your indicators and in no time, you will earn your profit.

But the best that this software could offer is that you will recognize stocks that will earn consistently by producing profit as a short-term trader. Now, who wouldn't want that?

With so many trends taking hold of the trade industry, it's no surprise that anyone could easily get a headache by merely choosing which software to buy that could give him a proven productive way to select stocks with almost 100% accuracy. Everyone right now is joining the bandwagon, but the question remains: Which one will give you more value for your money?

I can enumerate several reasons why any trader would prefer this software over other software that's out in the market:

- It has the most competent way to select stocks for a short-term trade
- It's so easy to navigate with a very user friendly interface
- It simplifies a lot of complicated concept of trading and understanding market formations
- It's highly visual you would want to use it over and over

A few years ago, the results Stock Picker Rt can deliver would have been impossible to obtain in just one sitting. Now, all you have to do is make a decision for some split seconds to be sure that you can have your share of gains.

I believe in Stock Picker RT. But if you know what you want, there si no doubt you will too.
